APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to
revocation if and when water can be furnished by an entity such as a water district
or a municipality engaged in furnishing water. A totalizing meter must be installed
in the discharge pipeline, near the point of diversion, and accurate measurements
must be kept of water placed to beneficial use. It is understood that this right
must allow for a reasonable lowering of the static water level. The well shall be
equipped with a 2-inch opening for measuring depth to water. If the well is flowing,
a valve must be installed and maintained to prevent waste. This source is located
within an area designated by the State Engineer pursuant to NRS 534.030. The State
retains the right to regulate the use of the water herein granted at any and all
times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0223 cubic feet per second, but not to exceed 2.92 million gallons annually.

Actual construction work shall begin on or before N/A

Proof of commencement of work shall be filed before N/A

Work must be prosecuted with reasonable diligence and be completed on or before May 25, 1983

Proof of completion of work shall be filed before June 25, 1983

Application of water to beneficial use shall be made on or before May 25, 1986

Proof of the application of water to beneficial use shall be filed on or before June 25, 1986

Map in support of proof of beneficial use shall be filed on or before _____

Commencement of work filed _____ IN TESTIMONY WHEREOF, I PETER G. MORROS
